Raymond Ambrogio
President

THETA DELTA CHI

After returning from a variety of summertime activities ranging from engineering jobs to mosquito killing, the brothers at ΘΔΧ were in top spirits for the commencement of "Rush Week." When the dust had cleared, we found that the Greek gods had blessed us with nine capable pledges.

Despite the conspicuous loss of the able leadership of our large yellow dog Herman early in the term, President Ray Ambrogio soon had things organized and running smoothly. Ex-Prexy Neil Harper had quickly put great distances between himself and M.I.T. by starting advanced studies in Switzerland. House manager Vance Hoffman kept the house in top physical condition and initiated several major changes in the facilities. Our treasurer, Craig Sawyer, and social chairman, Pete Cairns, have been busy balancing our budget and social lives respectively. October brought the annual Pledge Dance; November saw the frosh retaliate with a square dance for the brothers. The year continued with many successful parties including the famed open bid "Outhouse Orgy."

This year the boys at 314 are again sprinkled liberally throughout the Institute in varied activities. These include varsity sports as well as a complete line of intramural teams. George Kirk served as captain of both the varsity hockey and varsity sailing teams. George Felts and Craig Sawyer captured the I.M. sailing crown.

These are but a few of the numerous, subtle events taking place every day which go into the making of a truly successful house.
