

Theta Delta Chi

Theta Delta Chi boasts a superb location on Memorial Drive, the garden spot of Cambridge. From our front bay windows we command a magnificent view of the majestic Charles. In the back the scenery is bedecked with a superlative alley, and a parking lot filled with muck, mire, and ruts that could only have been made by a herd of oversized tractor trailers. Despite these obvious advantages, "314" managed to corral the fourteen finest pledges of '68.

The freshmen were quickly swung into the swing of things. Pledge Dance, and its counterpart, Brother Dance, were only two of the many occasions when voices and alcohol were raised (and illumination lowered) in efforts to escape the shadow of the Tute. In fact, every weekend was enlivened by some sort of affair—beatnick, booze, beach, or a just plain roll-up-the-rug type party. And thanks to Brother John Miller's 28 foot moving van, we were never lacking transportation to Wellesley. In a final effort to brighten the lot of Cambridge, social Chairman Walt Miller stayed on his feet long enough to organize our annual open-bid "Outhouse Orgy" in the spring. The revelers

responded in style, nuzzling and guzzling their way to dawn.

But despite our efforts, life is not one long party. There are lulls known as "Study Conditions." This phrase, which we have fondly come to think of as the call of the wild Scholarship Chairman, was continuously and vehemently uttered by Yaz Sharif. Despite Yaz's lungpower, the house responded with a significant improvement in scholarship.

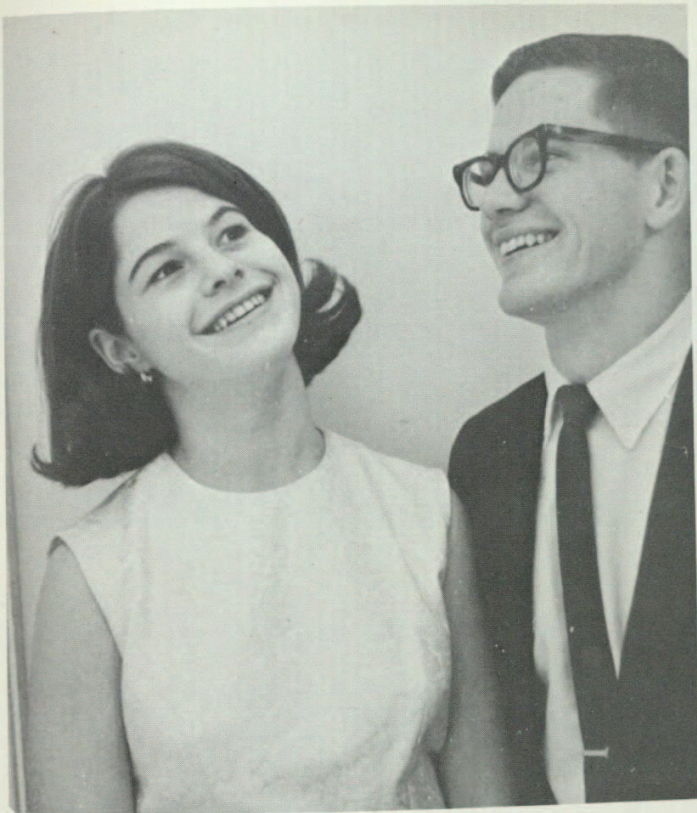

When we aren't studying or partying, life centers around athletics. TDC has representatives on six varsity teams and plays in every intramural sport. This year we won the Intramural Hockey Championship, and won in our leagues in basketball, squash, and badminton. In addition, we took second place in golf. But we played football and volleyball just for fun this year.

And so another year has gone by for the Theta Deltas. It's been an especially important one for the seniors who will be leaving us, but like all past Theta Deltas they'll leave a part of themselves behind, an example in years to come.

So that's what that means

Very funny, pledge; say that again

A disease like that would drive a normal man indoors
